Dealer Alert

SERVICE ONTARIO LICENCE OFFICES AND COVID-19

During these unprecedented and uncertain times it is understandable that many dealers are calling to ask about their local Service Ontario Offices.

We have sought answers from Ministry officials. This is what we know so far:

There has been no directive from the Ministry that Service Ontario Offices must close, but individual Offices may close if staff report illness.

Meanwhile, we are told, the Ministry is meeting with staff to prepare a plan to ensure that the public and dealers can continue to access services.

We expect more information shortly which we will pass on to all of our Members as soon as we have it.
