## **To All UCDA Members**

# **Important Notice for Drive Clean Facilities**

If you are a Drive Clean Facility, you should be receiving a package from the Drive Clean Office this week with important information about continuing as a DCF.

Drive Clean is making major changes effective January 1, 2013. Testing will be based on the OBD systems of vehicles that have OBD and new equipment will be required.

Read the package carefully. You have until September 1, 2012 to make some important decisions about continuing as a DCF.

**If you do not receive the package this week  
or have any questions about it, please contact the  
Drive Clean Facility Assistance Line at 1-855-895-8509**
